## SUMMARY

Final year Electronics and Communication Engineering student with hands on experience building full-stack web applications using Java, JavaScript, React.js, Node.js, Flask, and Spring Boot. Proficient in REST API development, and SQL/NoSQL databases including MySQL and MongoDB. Founded Framecape, delivering production level frontend solutions to 9 clients. Actively seeking opportunities to apply academic knowledge and project experience in real world software development roles.

## TECHNICAL SKILLS

**Languages:** Java, Python, JavaScript, HTML5, CSS3, SQL  
**Frameworks & Libraries:** React.js, Node.js, Express, Flask, Spring Boot, Bootstrap, WebSockets  
**Databases & Tools:** MySQL, MongoDB, Git, GitHub, Postman, VS Code, Ollama, Mulesoft  
**Concepts:** REST API, MVC, bcrypt Auth, LoRA Fine-tuning, Data Encryption

## WORK EXPERIENCE

**Founder & Lead Developer** 2026 – Present  
Framecape  
– Developed responsive web interfaces using HTML5, CSS3, JavaScript, and Bootstrap components for 9 clients; built REST API driven modules following MVC architecture and component design specifications.  
– Designed and implemented MySQL compatible CRUD operations and JDBC style data access logic; enforced best coding standards and practices across all client projects with 100% on time delivery.  
– Led a team of 3 developers via GitHub; reviewed 20+ pull requests, applied design principles and appropriate data structures to solve functional requirements efficiently.

**Frontend Developer** 2025 – 2026  
Pathmakers  
– Built responsive presentation-layer interfaces using HTML5, CSS3, JavaScript, and Bootstrap for 3 clients; ensured cross browser compatibility and consistent UI across all pages.  
– Translated design mockups into reusable UI components; wrote clean, maintainable code improving module level readability and frontend consistency.

**Cybersecurity Intern** 2025  
Edunet Foundation (AICTE)  
– Developed 2 Python encryption tools using LSB steganography with structured algorithmic logic; applied unit level testing achieving 100% lossless data concealment across PNG and BMP formats.

## PROJECTS

**FacultySync – Faculty Leave & Substitution System** | *Node.js, Express, MongoDB, REST API, HTML5, CSS3, Bootstrap* 2026  
– Engineered a full-stack leave and substitution management system for MKCE ECE department; implemented automated substitute matching logic with real time timetable clash detection and live notification alerts for 40+ faculty staff.  
– Designed RESTful APIs for CRUD operations across leave requests, timetables, and user records; secured with bcrypt authentication, session TTL, and role scoped access control backed by MongoDB Atlas.  
– Built responsive Bootstrap based staff portal frontend deployed on GitHub Pages with Express backend on Render.com; independently resolved 27 bugs across security, logic, and UI/UX layers.

**RPM Chat Agent Dashboard** | *Flask, WebSockets, REST API, LoRA, LLM* 2026  
– Built a real time Remote Patient Monitoring dashboard with REST web service backend; fine tuned TinyLlama 1.1B via LoRA achieving loss reduction from 10.9 to 0.25; optimized 4 prompt classes with 0.32 accuracy improvement.  
– Applied structured data models and algorithm design for patient classification; integrated Ollama REST API with a 7B LLM for real time inference across WebSocket connections.

**MKCE Clubs Portal** | *HTML5, CSS3, JavaScript, Bootstrap, Responsive UI* 2025  
– Designed and developed the official clubs portal for M. Kumarasamy College of Engineering using HTML5, CSS3, JavaScript, and Bootstrap; deployed responsive UI actively used by 4000+ students across campus.

## EDUCATION

**M. Kumarasamy College of Engineering**  
B.E. Electronics and Communication Engineering – CGPA: 7.36 (Till 5th semester) 2023 – 2027  
**Kongu Matric Higher Secondary School**  
HSC – 84.8% 2022 – 2023

## CERTIFICATIONS & ACHIEVEMENTS

**1st Place** – Python Debugging & Quiz, National Level Techno Cultural Fest  
**1st Place** – Paper Presentation: "Efficient AI Usage", National Level Technical Symposium  
**Patent Filed** – Autonomous Mine Rover with Real-Time Telemetry; Nominated for Dr. Kalam Young Achiever Award 2025 (WYF)
